NOTES :

1 Considering the high level of international operations and present internal financial reporting, the Company has identified geographical segment as its primary segment and business segment as its secondary segment. The company is operating in a single business segment i.e. Textile and as such all business activities revolve around the segment.

The geographical segment consists of domestic sales and export sales. Revenue directly attributable to segments is accordingly reported. Since the resources/services/assets are used interchangeably within these segments, it is not practical to allocate segment expenses, assets (except debtors) or liabilities contracted, to these segments. Accordingly, no disclosure relating to the same is made.
